1-3

The image shows a technical drawing of a corner. A vertical line and a horizontal line intersect at the top right. A rectangular area is highlighted in light gray, with a thin gray border. Inside this rectangle, the text '1-3' is written in red. The '1' is a simple vertical line, and the '3' is a stylized, outlined number. A small black dot is located at the intersection of the vertical and horizontal lines, just above the highlighted rectangle.

1-6

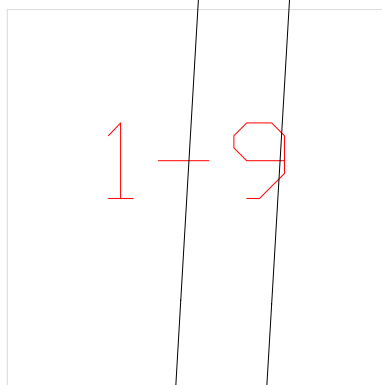

A geometric diagram featuring a rectangle with a light gray fill and a thin black border. Two lines intersect the rectangle: one line is nearly vertical, passing through the left side, and the other is nearly horizontal, passing through the top side. These two lines intersect each other and the rectangle at a single point in the upper-left corner of the rectangle. A small black dot marks this intersection point. The text "1-7" is written in red, centered within the rectangle.

$$4 - 1$$

A technical drawing of a vertical structure, possibly a road or a canal, shown in perspective. The structure is defined by two parallel lines that converge towards the top. A rectangular section is highlighted in the middle, containing the text "4-20". A small black dot is located on the right side of the structure, above the rectangular section. A horizontal line extends from the left side of the structure, intersecting the right boundary line.

9-20

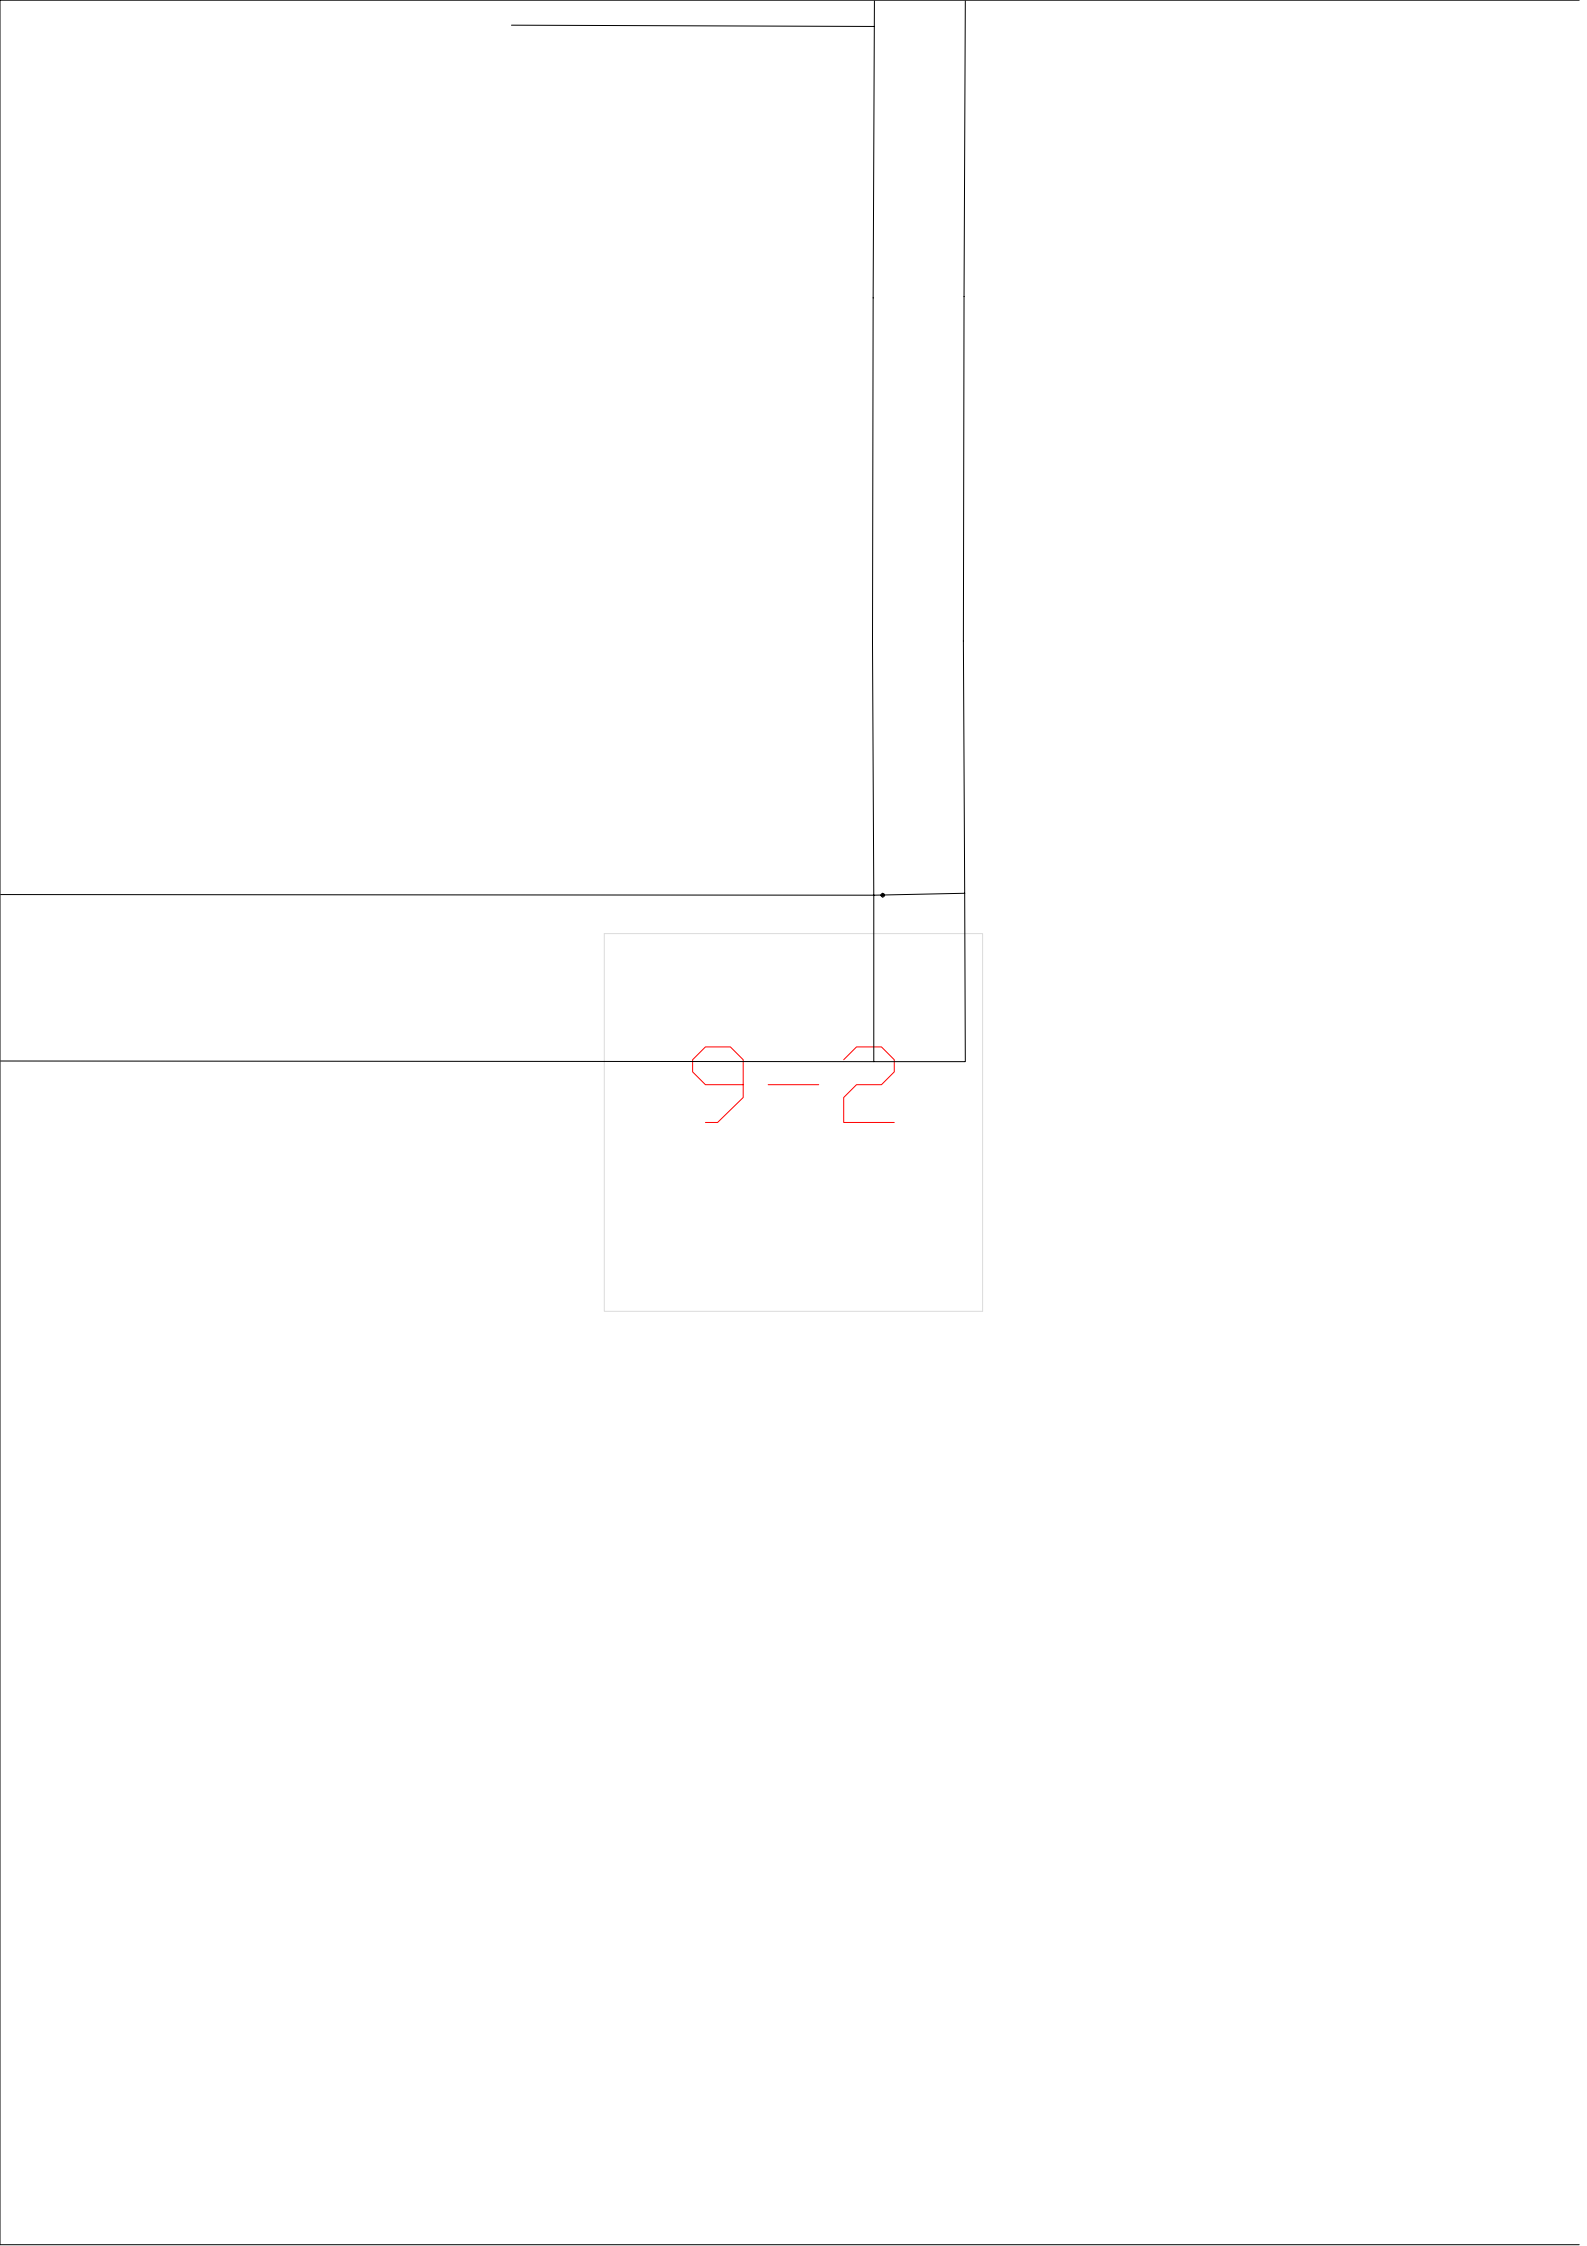

A technical drawing of a corner. A horizontal line and a vertical line meet at a right angle. A rectangular callout box is positioned in the corner, containing the text '9-21'. The box is outlined in light gray. The text '9-21' is drawn in red. The '9' is a simple outline, and the '21' is also a simple outline. A small black dot is located on the vertical line, just above the horizontal line.

9-5

9-6

9-7

A geometric diagram consisting of several rectangles and a central square. A horizontal line segment on the left has a small black dot at its right end. A vertical line segment on the right has a small black dot at its top end. A square in the center is outlined in light gray and contains the red text "9-8".
