A geometric diagram on a light gray background. A vertical red line runs through the upper portion of the image. To the left of this line, a series of black lines form a triangular shape that tapers towards the top. A small circle with a cross inside is located at the intersection of the red line and one of the black lines. To the right of the red line, two more black lines extend from the top towards the right edge of the image. In the center-right area, there is a light gray rectangular box containing the text "2-19" in red.
